

Aggregation Labels

Features

Quality.

After extensive testing the QR code symbology was chosen as the best format for our Aggregation Labels solution.

Without a single non read in many thousands of tests, its bullet-proof structure is just right for this critical application.

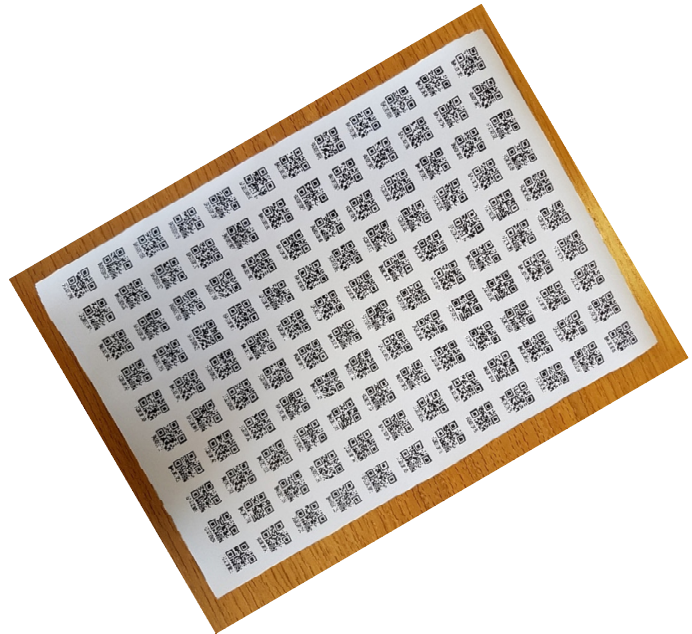

Outstanding performance.

Supplied as high tack labels, each Aggregation Label can be easily and securely applied to the outer script, ensuring compliance with all current and forthcoming aggregation regulations due in Feb 2019.

Outstanding Value.

Each label is 20mm x 23mm and presented as a whopping 120 labels per A4 sheet. We have created the perfect blend between performance and economy. The average pharmacy needing only 1000 sheets of labels to satisfy their entire annual demand.

Always Unique.

Created on special hardware and software, you can rest assured that no two of our Aggregation Labels will ever be the same.
